OnCall.

Eye-catching design, ultimate comfort, maximum performance

Features

- The transitional look of OnCall makes it appropriate for a wide variety of applications and environments, including meeting, training, conference rooms, and break areas, as well as labs and educational environments. OnCall goes wherever it's needed.
- OnCall is a versatile performer and is available with an optional tablet arm and bookrack. Order these options with your chair or install them later.
- The lightweight OnCall stacking chair has a convenient back handhold for ease of transport and storage.
- OnCall stacks on the floor and on a convenient stacking cart, facilitating quick and easy transport and storage. The unique design of the OnCall stool allows both the arm and the armless models to stack as well, providing maximum flexibility.
- OnCall's 7/16-inch wire frame incorporates a wall saver into the design, minimizing potential scuffs and marks on walls. Maintain a pristine floor using OnCall's optional non-marring glides.
- OnCall's seat and back are molded from high-impact polypropylene for increased, long-lasting durability.
- The seat and back provide a generous fit. An ergonomically designed crossbar allows for plenty of under leg clearance.
- OnCall is offered in the latest designer colors, complimented by a black or chrome frame, and can be specified with upholstered pads for extra comfort.

Ganging options

Ganging (Arm-to-Arm)
Plastic gangers allow chairs to be easily ganged, maintaining consistent alignment.

Ganging (Armless-to-Armless)
Armless chairs may be ganged with equal ease, also allowing for alignment and efficient space planning.
