RelaySM

High performance, low maintenance and lasting comfort.

Features

- The versatility of Relay allows it to be specified in multiple environments including meeting, training, conference rooms, and break rooms, as well as educational environments.
- Relay's nested/stacker option is designed for a quick transformation. Flip the arms and seat up for easy nesting or stack them up to 5 high for convenient storage. All Relay models incorporate a convenient handhold for ease of transportation and storage.
- The Relay guest can be specified with glides or casters for easy mobility. The task version offers two mechanism options and comes standard with a high profile base that complements Relay's sleek, thin lined appearance.
- Relay's seat and back, offered in the latest designer colors, are molded from high-impact polypropylene for increased, long-lasting durability and comfort.

Ganging options

Ganging (Arm-to-Arm)
Plastic gangers allow chairs to be easily ganged, maintaining consistent alignment.

Ganging (Armless-to-Armless)
Armless chairs may be ganged with equal ease, also allowing for alignment and efficient space planning.

Stacking

Stacking cart
Armless models stack 5 high and models with arms stack 5 high with Relay's optional stacking cart, providing quick, easy, and efficient transport and storage.

Color options

Black BK **Blue BL**

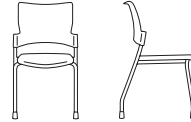

Green GN **Grey GY**

Red RD **Yellow YW**
